SPM-557F Automatic Case Sealer

Side Belt Drive

SPM-558F Automatic Case Sealer

Top & Side Belt Drive

Features:

The **SPM-557F** uses a new taping head incorporating a V shaped plate (patented) designed to keep the tape straight and in position for consistent sealing of every carton. This design is superior to previous blower devices. Driven by two side drive belts, each belt has a separate drive mechanism using a special bearing bracket. This provides higher precision, lower noise and lengthens belt life. Tape overlap length can be adjusted from 55mm-65mm.

The **SPM-558F** uses the same features above but has a total of 4 drive belts, two side belts and two top drive belts. Three motors are supplied to drive belts. The machine has been designed for heavy cartons and can also seal tall-thin cartons. A flexible cushion prevents jamming of cartons under the top taping head.

Shown with optional guarding

SPM-557F Case Sealer

Specifications

Voltage	110 V 1 PH 60 HZ
Power	10 amps
	Two motors, 370W
Sealing Speed	20M/min (66') / min.
Cartons/min	6—11
Tape Width	2" or 3"
	2" or 2.5" tape can also be used in 3" tape head with paper roll
Sealing Size	L 200-700mm x W 120-500mm x H 110-500mm
Shipping Weight	175 kg / 385 lbs

557F Tape 2"

557F Tape 3"

SPM-558F Case Sealer

Specifications

Voltage	110 V 1 PH 60 HZ
Power	10 amps
	Three motors, 555W
Sealing Speed	20M/min (66') / min.
Cartons/min	6—11
Tape Width	2" or 3"
	2" or 2.5" tape can also be used in 3" tape head with paper roll
Sealing Size	L 200-550mm x W 200-500mm x H 120-500mm
Shipping Weight	200 kg / 440 lbs
